

St John
Here for Life

Fundraise for your charity and support St John. 'Charities working together.'

As a charity St John understands just how hard it is to raise millions in funds every year.

We are constantly look for innovative ways to support other charities and non-profit organisations to not only fundraise but get more New Zealanders to learn first aid skills in a fun, interactive, and memorable way; and in doing so;

- ✓ The people your Charity reaches can gain skills to save a life; and make a 20% savings on a St John first aid training course.
- ✓ Your Charity can raise \$800.00 with every 'Level One' first aid course St John delivers
- ✓ Your Charity is supporting St John simply by purchasing your first aid courses from us

We believe it is a unique 3-way win, where everyone benefits.

How does this concept work?

An example;

1. Your Charity purchases a First Aid - Level One Private (group) course from St John **\$2245.40**
2. You offer the St John Level One course to your membership base with a 20% discount off the St John public price which is \$195pp (Your members price is now: \$156pp); if you fill this course with the maximum 20 attendees, you will receive: **\$3120.00**
3. Once you have paid St John for the Private Level One course (\$2245.40); the difference is the amount you have raised for your Charity! **\$874.60**

\$874.60 incl. GST is the amount you can raise *every* time you run a Level One training course; that's as long as you are sure you can get 20 attendees along to every course.

For further information on first aid course fundraising with St John, contact Scott Lewis.
